Email Subscription – System Wide Notices

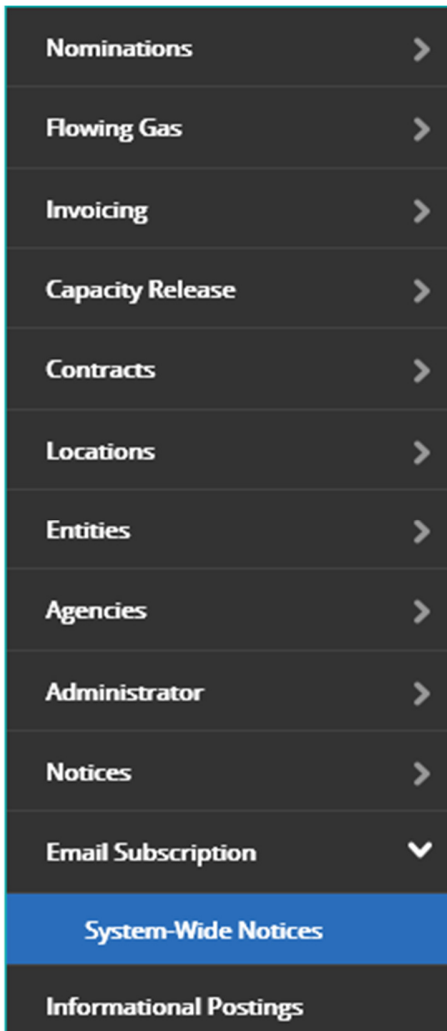

Email Subscription – System Wide Notices

This screen will display the System Wide Notices that an external user is subscribed to. All Critical Notices and NAESB mandated email notifications will display as enabled with a check box as a default setting. The external user may select which notices he would like to receive or no longer receive by checking or unchecking the box.

System Wide Notices

The System Wide Notices can be found on the menu under Email Subscriptions

Select System-Wide Notices

The screen will display each pipeline which the external user has an associated role as well as the email address that the notices will be sent to.
