Statement of Nature, Reasons and Basis for Filing

In Order No. 587-Z, the Commission adopted the most recent version of the NAESB Wholesale Gas Quadrant (“WGQ”) Standards, Version 3.2 (“3.2 Standards”), and set forth the requirement that tariff records be filed to reflect the changed standards by November 12, 2021, to become effective June 1, 2022.³ The implementation of the 3.2 Standards and regulations will promote the additional efficiency and reliability of the natural gas industry’s operations, thereby helping the Commission to carry out its responsibilities under the NGA. Further, the implementation of these standards will enhance the natural gas industry’s computer security requirements. In addition, the implementation of these data requirements will provide additional transparency to Informational Postings web sites and will improve communication standards.⁴ Pipelines must designate a single, separate tariff record under which every NAESB standard currently incorporated by reference by the Commission is listed, and a) specify within such tariff record whether a standard is incorporated by reference, or identify the tariff provision that complies with the standard; and b) provide a statement identifying any standards for which the pipeline has been granted a waiver, extension of time, or other variance with respect to compliance with the standard.⁵

³ The 3.2 Standards are designed to enhance the natural gas industries’ system and software security measures and to clarify the processing of certain business transactions. The 3.2 Standards will replace the currently incorporated version (Version 3.1) of these standards that the Commission previously incorporated by reference in 2018 pursuant to *Standards for Business Practices of Interstate Natural Gas Pipelines*, Order No. 587-Y, 165 FERC ¶ 61,109 (2018), Order No. 587-Z, at PP 2, 5.

⁴ *Id.* at P 2.

⁵ *Id.* at P 27. Further, at P 27 part (3), Order No. 587-Z requires that if a pipeline is requesting a continuation of an existing waiver or extension of time, it must include in a table in its transmittal letter the standard for which a waiver or extension of time was granted and the docket number or order citation to the proceeding in which the waiver or extension was granted. GTN has not previously been granted a waiver or extension of time to comply with any specific standards.

Since the issuance of Order No. 587-Z, GTN has undergone a process of identifying the changes necessary to implement the 3.2 Standards. Specifically, GTN has updated Section 6.41 of the General Terms and Conditions of its Tariff, consistent with the sample tariff record provided by the Commission,⁶ to identify each NAESB 3.2 Standard and whether the standard is incorporated by reference or to identify the tariff provision in which the standard is contained within the Tariff.

Effective Date

GTN requests that the Commission accept the tariff section included as Appendix A to become effective June 1, 2022.
