Re: North Baja Pipeline, LLC
Natural Gas Act Pipeline Maps Compliance Filing
Docket No. RP15-_____ - _____

Dear Ms. Bose:

Pursuant to Section 154 of the Federal Energy Regulatory Commission's ("FERC" or "Commission") regulations,¹ North Baja Pipeline, LLC ("North Baja") hereby submits for filing the tariff sections included as Appendix A to be part of its FERC Gas Tariff, First Revised Volume No. 1 ("Tariff").² The purpose of this filing is to comply with new FERC regulations regarding interstate natural gas pipeline maps. North Baja respectfully requests that the Commission approve the revised tariff sections to become effective June 1, 2015.

Statement of the Nature, Reasons, and Basis for Filing

On November 20, 2014, in Docket No. RM14-21-000, the Commission issued Order No. 801,³ which revised Part 154 of its regulations governing interstate natural gas pipeline system maps, in an effort to reduce the regulatory burden on pipelines and to enhance transparency. Previously, the regulations required that pipelines maintain a system map within their respective tariffs,⁴ and specified the content of those maps as well as the deadline for filing updated maps.⁵ Order No. 801 eliminated the requirement that pipelines include system maps in their tariffs as well as the requirement that pipelines must file updated maps by April 30 of any year following a major system change. Furthermore, as the Commission retained the requirement that pipelines post and maintain a system map on their Internet websites, Order No. 801 implemented a quarterly requirement for updating such website maps. Specifically, Section 154.103(a) was revised to require that a pipeline's tariff include a tariff section to accommodate a uniform resource locator ("URL") for the Internet address of its system map. A corresponding change was made to Section 154.106(a) requiring a tariff to state a URL on the pipeline's website.⁶ Within Section 154.106(c), the annual April 30 filing requirement for tariff maps was replaced with the requirement that the maps posted on a pipeline's website must be updated for major changes "no later than the end of the calendar quarter that immediately follows the calendar quarter in which the major change occurred." Finally, Order No. 801 stated that pipelines are not required to submit an initial compliance filing until April 1, 2015.⁷ In the compliance filing, the pipeline must reference an online map updated at least through December 31, 2014.⁸

In the instant filing, North Baja is submitting revised Section 3, attached hereto, to reflect the changes required by the Commission in Order No. 801. The maps in Section 3 have been replaced with a URL by which North Baja's system map, updated through December 31, 2014, may be displayed or downloaded.

⁵ 18 C.F.R. Part 154.106 - Map ("Section 154.106") (2014).

⁶ Section 154.106(a) states in its entirety, "The tariff must state a uniform resource locator on the pipeline's Internet website, at which the general public may display and download the pipeline's system maps."

⁷ Pipelines are permitted to update their tariffs and websites as soon as the rule goes into effect, 90 days after the Final Rule's publication; see *Federal Register*, Volume 79, No. 242 at 75050 (December 17, 2014).

Effective Date and Request for Waiver

North Baja requests that the Commission accept the revised Section 3 included as Appendix A to be effective June 1, 2015.
