¹ Section 6.36 – GT&C, Crediting of IT Revenues on Extensions ("Section 6.36").

Statement of the Nature, Reasons, and Basis for Filing

GTN's Coyote Springs Lateral extends 18.5 miles from milepost 304.25 on GTN's mainline to two (2) power plants located in Boardman, Oregon. GTN provides firm service on its Coyote Springs Lateral pursuant to a certificate issued in Docket No. CP93-618² and GTN's open access Rate Schedule FTS-1(E-3). GTN provides interruptible service on the Coyote Springs Lateral under Rate Schedule ITS-1(E-3), as approved by Commission Letter Order dated October 30, 1995.

Section 6.36 of GTN's GT&C requires GTN to credit back to "eligible" firm shippers ninety percent (90%) of the interruptible transportation revenues it receives on the Coyote Springs Lateral. Specifically, Section 6.36 provides that within forty-five days after November 1st of each year, GTN shall determine the total amount of applicable IT revenues received on the Coyote Springs Lateral (exclusive of variable costs and volumetric surcharges) during the previous twelve-month period and the portion of such amount to be credited to each eligible firm shipper.³

GTN will then credit the eligible firm shippers through a credit billing adjustment in the next invoice rendered after the determination of the applicable credit amount. In accordance with this provision, GTN refunded \$1,167.86 to eligible shippers through a credit billing adjustment on January 3, 2014. This refund includes interest calculated through the January 3rd invoice date.

Workpapers setting out the refund information as required by Section 154.501(e) of the Commission's Regulations are included in Appendix A. Schedule 1 sets forth the origin of the revenues subject to refund, showing a step-by-step calculation of the refund amount. Specifically, this worksheet shows the interruptible revenue collected during each month of the refund year and calculates the credit amount for each month (*i.e.*, 90% of the revenue for each month). For the year ending October 31, 2013, GTN collected interruptible revenues under Rate Schedule ITS-1(E-3) totaling \$1,269.51 (Schedule 1, column h, line 18), of which \$1,142.56 was

² *Pacific Gas Transmission Company*, 70 FERC ¶ 61,016, *reh'g*, 71 FERC ¶ 61,268 (1995).

³ "Eligible" shippers are defined in Section 6.36(1)(a) of GTN's Tariff as firm shippers under Rate Schedule FTS-1(E-3), excluding shippers receiving service under a capacity release agreement.

refunded to eligible shippers (Schedule 1, column i, line 18). Schedule 2 provides a calculation of the interest accrual on a monthly basis, including quarterly compounding. The interest rate used is the average prime rate for the calendar quarter as specified in Section 154.501(d) of the Commission's regulations. As indicated on Schedule 2, column h, line 26, GTN accrued cumulative interest charges of \$25.30 for a total refund amount of \$1,167.86 (Schedule 2, column j, line 26).

Schedule 3 shows the calculation of the refund amount issued to each shipper. Schedule 3, column b, reflects the total transportation revenue from firm transportation service on the Coyote Springs Lateral under Rate Schedules FTS-1(E-3) during the Refund Year.⁴ As reflected on Schedule 3, column b, line 3, GTN collected a total of \$1,105,057.37 in firm revenue during the Refund Year. The percent of each shipper's contribution to GTN's firm revenue on the Coyote Springs Lateral is calculated by dividing each shipper's net contribution (column b) by the total firm revenue collected (column c); the resulting percentage is shown in column d, "Customer Allocation Percent." Each shipper's proportionate share of the refund is calculated by multiplying the Customer Allocation Percentage (column d) by the total amount to be refunded (column e), as calculated on Schedule 2. The resulting refund for each customer is set out in column f.

In accordance with Section 154.501(e)(6)(i) of the Commission's Regulations, this filing includes this transmittal letter (including all information required by the Commission's regulations), and workpapers showing the calculation of the refund (Appendix A).

⁴ Pursuant to Section 6.28.10 of GTN's GT&C, GTN invoices releasing shippers for their capacity, but credits the releasing shippers with revenue received from replacement shippers. In those instances where a shipper holds capacity at a rate below GTN's maximum tariff rate, and releases capacity to a second shipper at a rate greater than the releasing shipper's as-billed rate, the amount in excess of the releasing shipper's as-billed rate is credited directly to the releasing shipper, and does not constitute revenue received by GTN. As such, the net transportation revenues received from individual customers may not equal the total amount of a shipper's monthly invoice.
